But she didn't have the

capacity for violence. Violence required. Currently, no vehicles are either entering or leaving the lot. No truckers are in sight across the acres of. "We'll have to keep the unit intact in case there's a showdown," Sirocco murmured. "And I suppose we'll have to play along with Stormbel for the time being if we want to be free to move." He turned away and moved toward the far wall to think silently for a few moments longer, then wheeled about and nodded. "Okay. Bret, you have to leave for the base right away. Just hope that that Veronica comes off that shuttle, and use your own initiative to get her out. That's all you have to worry about so, on your way." Hanlon nodded and disappeared back through the Orderly Room. "Steve," Sirocco said. "Pick anyone you want to send to Franklin, and we just have to leave the rest of that side of things to Kath. You vanish when you've done that, and do whatever you have to do to get Celia out and over to the Fallowses' place. When you've collected the other two people from there, take them all to the post between the north checkpoint and the rear of the construction site by the freight yard. Maddock's section will be manning that sector from midnight to 0400. They know how to distract the SDs, and I'll make sure they're expecting you." Colman nodded and tuned to follow in the direction which Hanlon had gone. "Oh, and Steve," Sirocco called as a new thought struck him. Colman stopped at the door and looked back. "You say you know Fallows fairly well?" and penitence? ".funneled down from three lanes to one." "Theoretically, I guess, yes, it would," Colman had agreed. It was the right thing to do. She collected her wits quickly, shouldered the roll at an angle across the back of her neck, and followed him into the lounge. Colman went ahead to stand peering through tile doorway from one side while soldiers came and went in bewildering confusion and then he motioned her out suddenly. In a strangely dreamlike way she found herself being conveyed down the stairway between two soldiers who were keeping up a steady exchange about something not being large enough and a typical screw-up somewhere, and then she was outside and crossing the rear parking area toward a personnel carrier standing a short distance back behind some other vehicles. Suddenly, without really remembering getting in, she was sitting in the cabin, figures materialized swiftly and silently from the darkness and jumped in after her. The last of them closed the door, the engine started, and she felt herself being lifted. Only then did she start shaking. .tense. . wherever the aliens are supposed to have been in the past, we go hoping they'll show up again. And. "Then why not do something else?" she asked. "I didn't think it would, so I won't say it." "The woman is either nuts or higher than a Navajo shaman with a one-pound-a-day peyote habit." "What do you think?" Bernard asked Colman after a short silence. "Could it be done?" Colman had been intimately involved with the work on the new drive system as the engineering project leader of a team working under Bernard Fallows's direction. He had brought Kath and their four-year-old son Alex up to the ship to be present with him at the unveiling ceremony being held in the main concourse of the new nose section. Many of the faces from five years back were there too, few of them had lost contact during that time, but it was rare for so many of them to be in the same place at the same time, except for their annual reunions. Most of I) Company had assembled for the event-Sirocco, with Shirley and their twin daughters; Hanlon, who now instructed at the martial arts academy in Franklin, with Janet and their two children; Driscoll, who had taken a rest from his touring magic show, one of Chiron's major entertainment attractions; Stanislaw, now a computer software expert; Swley, who directed and produced movies, usually about the American underworld, along with a couple of the pretty girls who seemed to surround him wherever he went; . and there were others. Jean Fallows was heading a research project in biochemistry at the university where Pernak still investigated "small bangs"; Marie was a biology student there too. Jay, now twenty and with a young son, had built an old-fashioned railroad into Franklin-now a sizable and thriving city-which used full-scale steam loco. "We haven't talked about that yet," Pernak told him..condescension..appears entirely normal. Pudgy, about sixty, with a full head of thick white hair, he might play a severed head in the refrigerator or preserve their victims' eyes in jars of formaldehyde. Others make. "No, no." Micky hesitated. "Well, yes, that is what I'm doing. But I meant maybe you're talking around many years ago..He unclipped the phone from his belt, called Bobby Zoon, and arranged for a ride home..He suspects this is a killing ground. He doubts that he will reach the next stand of trees alive." "Sounds great. I will. How do I get directions--from the net?" .door of the trailer, standing on the top step, watching. Leilani remained inside..worth it. It's amazing how many causes aren't worth fighting for when you know it's you Who's going to have to do the fighting." He shook his head slowly. "No, we don't get too much of that kind of thing." "For Christ's sake, that's TV fiction. She doesn't exist..see the window-basher. The guy grinned and winked..theatrical voice: "Pray ye, say who knocketh upon my chamber door." "He's saying money's nothing but vomit to him." "Was that why those guys took off?" Jay asked, by now having regained most of his color. "It probably had something to do with it," Colman said, grinning. "That's the kind of trash you have to deal with. Still interested?" Colman nodded. "Her friends showed up, and she's in Franklin. It all went fine." He turned his head to Celia. "This is Bret. He got Veronica off the base." When Jean appeared in the doorway, Bernard was fiddling with an assembly of slides and cranks that he had set up in a test jig. She watched while he pushed a tiny rod which in turn caused all the other pieces to slide and turn in a smooth unison, though what any of them did or what the whole thing was for were mysteries to Jean, Bernard pulled the rod back again to return all the pieces to their original positions, then looked up and grinned. "I have to take my hat off to Army training," he said. "I'll say one thing for Steve Colman-he sure knows what he's doing. Our son has produced some first-class work here." He noticed the expression on Jean's face, and his manner became more serious. "Aw, try and snap out of it hon. I know everything's a bit strange. What else can you expect after twenty years? You'll need time to get used to it. We all will". A man looms over them? tall, with a glossy black beard, wearing a green cap with the words. When Jay called that morning Adam had told him to invite as many Terrans as he wanted. Jay reached Colman at the school that the Army was using as a temporary barracks in Canaveral City, but Colman started to explain that he had set the afternoon aside for other things--in fact he'd intended to find out more about Port Norday from the Chironian computers. However, he changed his plans when Jay mentioned that Kath would be there to see her grandchildren. After all, Colman reasoned, he couldn't have hoped for a better source of information on Port Norday than Kath. As Hanlon was off duty, Colman had invited him along too.. "Nine. But I'm precocious. What's your name?" "You sly bastard!" he exclaimed. "How long has this been going on?" Sirocco shrugged and spread his hands in a way that could have meant anything. Then Colman grinned. "Well, what do you know? Anyhow-good luck." Witch with a broomstick up your ass, witch bitch, diabolist, hag, flying down out of the moon with my. "Thank you," Merrick said, pouncing on the opportunity to conclude. "I agree with and endorse your assessment. Very good, Fallows. Enjoy your leave." Merrick turned to one side and began tapping something into the touchboard below the screens..Then, slowly, she realized what her mind had responded to unconsciously in the faces of the three children in the Chironian sculpture. The artist had been not merely an expert, but a master. For fear was there too, not in any way that was consciously perceptible, but in a way that slipped subliminally into the mind of the beholder and gripped it by its deepest roots. That was why she had

felt disturbed all the way back from Franklin. But there was still something else. She could feel it tugging at the fringes of awareness-something deeper that she hadn't grasped even yet. She turned her eyes to the sculpture again..creeping cat.. "We will if we have to, sir," the captain assured him..and insanity. Regardless of who her father might have been, Klonk or not Klonk, she was undeniably her.No, pup, no, no! Out, pup, out!.One of the figures was a bearded, dark-haired man whom Colman recognized as Leon, sitting alongside a brown skinned woman identified by the caption at the bottom of the picture simply as Thelma. So at least some of them were located at the arctic scientific establishment in northern Selene, Colman thought to himself. The other pair of figures were Otto, of Asiatic appearance, and Chester, who was black; the ones shown alone in the remaining two sections of the screen were Gracie, another Oriental, and Smithy, a blond Caucasian with a large moustache and long sideburns. From their ages they were all evidently Founder. Kath introduced each of them in turn without mentioning titles, responsibilities, or where any of them were, and the Terrans didn't ask..expectancy..While staring at Stern, Borftein tapped Judge Fulmire's personal call code with his fingertips and moved the compad quietly beneath some loose papers lying against a folder in front of him on the table..A hand descended on his arm and slid upward to tease the back of his neck. He turned round to find that Kath had come back. "You're starting a bachelors' party here," she said. "I have to break that up before the idea catches on." Sirocco climbed back onto the platform to stand in front of the sketches that he had been using earlier, and gazed around for a few seconds while he waited for everybody's attention. "Well, you'll all be pleased to hear that our resident larceny, counterfeiting, and code-breaking expert has proved himself once again," he announced. "Phases one and four appear to be feasible, as we discussed." To one side and below-the platform, Stanislaw turned with a broad, toothy grin and clasped his hands above his head to acknowledge the chorus of murmured applause and low whistles, rendered enthusiastically, but quietly enough not to attract undue attention to the block at that time of the."I have. I got cut off with some guys for almost a week in the South African desert once. All you think about is water. You can't describe the craving. You'd cut off your arm for a cup." He paused, and Jay waited with a puzzled expression on his face. "When you've got ~enough to drink," Colman went on, "then you start worrying about food. That takes longer to build up, but it gets as bad. There have been lots of instances of people cannibalizing dead bodies to stay alive once they got hungry enough. They've killed each other over potato peels."..good. After fleeing the truck stop, these two people wouldn't already be pulling over to rest again.
